SANDHILL CRANES MIGRATION VIEWING & PHOTOGRAPHY

Every March/April, more than 500,000 Sandhill Cranes – more than 80 percent of the world's population – converge on the Platte River Valley to fuel-up before continuing north to their nesting grounds. National Geographic named this annual migration as one of North America's two greatest natural wildlife phenomena, drawing people from across the U.S. and internationally.

Members and friends of the Nebraska Press Association will view Sandhill Cranes from three separate viewing blinds on land owned by the Platte River Recovery Implementation Program (PRRIP). The PRRIP is a collaborative program that addresses the needs of four threatened and endangered species using the Platte River Basin.
